FULL AUTO LEADERSHIP RETREAT

THIS IS NOT JUST ANOTHER LEADERSHIP EVENT.

The Full Auto Leadership Retreat is a hands-on, no-fluff experience built for high-potential leaders in the construction and skilled trades. It's for the few who are ready to **transform how they lead** – and bring back tools that change the game for their company.

This is where your best people go to grow.

WHY SEND YOUR LEADERS?

Because leadership drives everything.

When your top talent leads with clarity, trust, and confidence—performance rises, culture tightens, and retention improves. This retreat equips your people to lead better conversations, inspire stronger teams, and build a workplace others don't want to leave.

And the ROI?

It's not just what they learn. It's what they **bring back**.

WHO SHOULD ATTEND?

Contractors typically send 2–3 of their rising stars or key leaders – those they want to grow, challenge, and invest in long-term.

Attendees connect with peers facing the same real-world issues. While not a formal mastermind, the insight, encouragement, and problem-solving that happens here is powerful.

Only 20 Spots. All-Inclusive Investment.

Airfare to/from Oklahoma City is the only thing not covered. Everything else – meals, lodging, training, events, and coaching – is included.

Transformational leadership isn't taught. It's built.

Send your best. We'll send them back stronger.

12-MONTH ROUNDTABLE SERIES (VIA ZOOM)

The retreat may end after four days – but the leadership journey continues.

Over the next 12 months, we'll meet virtually 10 times to sharpen each other, share progress, and stay accountable to the commitments made at the retreat. These roundtables are where lessons turn into habits and momentum turns into transformation.

Each session is an opportunity to:

- Share real-world wins and hard-earned lessons
- Troubleshoot leadership challenges with people who get it
- Stay focused when the pressure of the job hits back

This isn't about checking in. It's about locking in.

Because when you surround yourself with other leaders chasing growth, **you don't drift – you rise.**
